2018 HAPPY CANYON SAUVIGNON BLANC

The Happy Canyon AVA is the warmest micro-climate in the Santa Ynez Valley. Dense early morning fog lifts to long afternoons full of sunshine. Our 2018 Sauvignon Blanc exemplifies the varietal characteristics that are typical of both the warm and cool climates to which these grapes are exposed.

Our 2018 Sauvignon Blanc opens with pronounced bright notes of white flower, lemon curd, and mango on the nose, as well as an underlying hint of fresh wet grass.

This wine has a lovely bright acidity with notes of elderflower, apricot and white grapefruit on the palate. The finish is long and lingers long after each sip, a reflection of the brief bit of oak fermentation.
